

Sense Cable Options

Targeted Cable

or

Rope Cable

Sense Cables ordered separately

Targeted Cable – Our targeted sensors provide property owners peace of mind with a simple and secure installation in leak prone areas

Rope Cable – Our durable and fast drying rope sensors are quick and easy to install, creating a leak detection zone along the cable's entire 6 ft length (1.8 m)

Mix and match up to 3 Sense Cables to extend detection area up to 18 ft (5.5 m)
